APPLICATION FOR SIGN PERMIT

INSTRUCTIONS

**** A SEPARATE APPLICATION IS REQUIRED FOR EACH INDIVIDUAL SIGN ****

The Town of Southampton Sign Ordinance was revised in October of 2004 and is now located in Article XXII, Paragraphs §330-200 through §330-210 of the Town Code. Free access to the Town Code and application forms are found at: www.southamptontownny.gov; choose "Town Code" from the menu. For downloading the application, click "Applications and Forms", then "Land Management/Building and Zoning Division", and click "Application for a Sign Permit".

This application must be fully completed legibly in ink. **The completed application (original plus one duplicate) along with the requirements listed below (originals and duplicates) are to be submitted to the Building Department with the required fee (checks are made out to "Town of Southampton").** Incomplete applications may be returned.

The application will be reviewed by the Building Inspector for completeness and zoning compliance. He will then refer it to Architectural Review Board or the Planning Department for design review (See Code §330-208A(2)).

Expedited "ADMINISTRATIVE SIGN PERMITS": An "administrative sign permit" review can be performed by the Building Inspector if requested by checking "yes" on page 1 of the application, providing the sign meets the strict criteria given in §330-208B (attached).

TEMPORARY BUSINESS SIGN: Prior to obtaining a sign permit, any business may apply for a TEMPORARY BUSINESS SIGN in addition to, and as part of the standard sign permit application and as allowed per §330-205.I of the Town Code. Check the request item on page 1 of the application, and complete item #12 on page 4 of the application.

RENEWALS: **Do not use this application form.** Instead, use the "SIGN PERMIT RENEWAL APPLICATION" and submit a notarized single (1) completed application (form only) with fee, unless the approved design was modified without review and approval. Modified signs will require a new permit application and a doubled fee.

List of items to be submitted:

- ❑ Submit copies of any approvals granted by the Board of Zoning and Appeals, and/or Planning Board, if applicable to this application.
- ❑ Submit (2) Surveys or site plans showing exact location of building and location of existing and proposed freestanding signs, wall signs and other regulated signs.
- ❑ If sign is to be mounted on a building or in window, provide (2) accurately scaled drawings (use of photographs to supplement the design drawing is recommended) of the building elevation showing the exact location of the proposed sign and any existing signs.
- ❑ Provide TWO (2) accurately scaled, COLOR drawings for each new or additional sign board and sign structure showing overall dimensions, materials, embellishments, graphics, height from the ground to base and top, lettering size, font type, and dimensioned placement of any and all design elements. Include color and location of any required equipment, lighting, and conduit wiring. Include one (1) set of COLOR CHIPS of all sign colors. Include the pantone reference no. (or its equivalent) for each color used.
- ❑ The Town of Southampton is located in a 120 mph wind zone. Provide construction and fastening details for all signs. Construction and materials shall be designed to meet the minimum requirements of Section 1609 of the Building Code of the State of New York. Certification by a NYS licensed design professional may be required. See 330-210D.
- ❑ If sign is to be illuminated, provide internal or external lighting details, including wattage, fixture type and color, spacing, shielding, color and location of related wiring and equipment, and any other information to show compliance with S.330-207 of the Town Code. (Two sets).
- ❑ Submit NYS Workers Compensation Insurance certificate from Contractor responsible for work using one of the following approved forms: C105.2, C105.21, U26.3, SI-12, or WCB approved waiver form for those who qualify, CE-200. **ACORD certificates are not acceptable.**
- ❑ Enclose Fee - \$5.00 per sq. ft. \$50.00 minimum. Double fees if sign exists illegally. Temporary Business Signs require an additional \$50.00 added to the regular sign fee.
- ❑ If an existing sign with an associated certificate of compliance is to be, or was removed without a sign demolition permit, you will need to file a separate building permit (SDEM) to nullify the former certificate, and completed prior to the issuance of a certificate of compliance for the new sign. There is no fee.
- ❑ A change of use/tenancy requires that an application for a building permit, and an application for a certificate of commercial compliance be made and obtained prior to sign permit approval.

The Architectural Review Board ("ARB") meets the first and third Tuesday of each month. Since applications may take several weeks to process, the ARB recommends that applications be submitted with all necessary information a month before the sign is needed. The Board reserves the right to request additional information not specifically required by this application as may be necessary to conduct an informed review of the application. Tel: 631-702-1844

After the review and approval process, the Building Inspector will issue a Sign Permit that is good for a period of one (1) year. **Signs are not to be installed until after a permit is issued.** The permit number is to be permanently displayed on the lower right hand corner of each sign per §330-208A(1) and shall be ¾" in height and so as to be complimentary to the overall design scheme. However, you must call this Department for all required inspections at **(631)702-1840**. Illuminated signs also require an electrical permit and separate certificate of compliance. Call (631) 702-1830 for a final electrical inspection. The Building Inspector will then issue a certificate of compliance upon a satisfactory inspection and review of any required documentation and certificates. Be advised that it is a code violation, §330-208A, to allow a sign to exist for more than 30 days after being erected without first having a **Certificate of Compliance** on file.

From: *Michael E. Charrier, Chairman, ARB*

Due to the difficulty, we have been having in reviewing the sign applications I want to implement the following policy & procedures in reviewing sign applications. This is in addition to the requirements listed in the existing zoning code section §330-208-A(1)

1. Other than preliminary applications, all sign applications must adhere to the current sign code. In such cases where exceptions are allowed, the application will have a copy of the Zoning Board of Appeals decision, and a note from the sign reviewer outlining such exceptions.
2. All colors will have a PMS color and reference numbers or equivalent, and it will be clearly indicated as such.
3. The Building Inspector charged with sign administration and enforcement will be copied on all ARB minutes and correspondence to applicants related to signage.
4. All sign designs must indicate, but not be limited to, the following:
 - (a) The type and location of fonts and other graphics
 - (b) Any design element
 - (c) The precise measurement of all lettering, to include measurements between lettering.
 - (d) Measurements of designs and the measurements between the design and the border of the sign.
 - (e) Physical samples of materials with colors applied as deemed necessary by the sign reviewer and/or the ARB
 - (f) The sign depicted upon the building, structure or lot, including scaled relationships.
 - (g) A valid survey supplemented with an accurate site plan with the sign location clearly marked and to include topographical data where freestanding signs may be affected due to changes in grade, and any other information that may assist the Board during design review. Locations of relevant structures on adjacent parcels shall be noted.
 - (h) Sign illumination details, color, type, luminosity, wattage, methods of concealment, etc.

((9f))

Unless an application is complete and containing, the above information I will not bring the application for a vote of the board.

Michael E. Charrier, Chairman

ADMINISTRATIVE SIGN PERMIT (an expedited procedure)

Is your sign eligible to be issued as an “**administrative sign permit**” as per §330-208B of the Town Zoning Law?

The design shall comply with all zoning requirements and the following design criteria:

§330-208B. Administrative permits.

(1) To encourage appropriate and compatible signage throughout the Town of Southampton, any sign meeting the provisions set forth in § 330-207, the applicable zoning requirements, and all of the following design criteria, shall receive a permit from said Department within 15 days of its receipt of a complete application seeking such expedited relief:

(a) **Color:** maximum of three colors, one for background, a contrasting color for lettering, and a third color for borders, motifs, or letter shading to give the sign a three-dimensional look. Colors shall be muted and earth tone with a matte finish, as those terms are defined in Schedule A, Subsection (3), attached.

(b) **Message:** Content shall be limited to the name and type of business, street number or address, and telephone number.

(c) **Scale:** in scale with the building to which it relates and not covering any architectural details, such as arches, transom windows, moldings, columns, capitals, sills, cornices and the like.

(d) **Materials:** wood that is either hand carved, sandblasted, flat painted, or any combination thereof.

(e) **Illumination:** only external direct illumination from a shielded, low-intensity, white light source, not to exceed 60 watts per fixture. When two or more light fixtures are used to illuminate a sign, spacing between such fixtures shall not be less than four feet.

(2) Signs that are subject to Planning Board review pursuant to § 330-208A(2) are not eligible for administrative permits.

IMPORTANT MESSAGE REGARDING HOUSE/BUILDING NUMBERS

As of March 31, 1994, Chapter 286 of the Southampton Town Code will require that all Town residents display house numbers so that they are clearly visible from the street. The law requires that you use only the number assigned by the Town. Structures supporting commercial signs shall not be used to display numbers without ARB approval.

Note: Applications with sign colors that meet the definition of 'earth tone' or 'muted' and/or match the above Pantone® color formulation guide shall be eligible for administrative review in accordance with the provisions of the Town Code.

"Muted Color"- A color (hue) that is saturated or diluted with white and/or gray to reduce the sharpness/intensity of that color.

"Earth Tone Color"- A color to which brown and/or gray has been added to saturate the sharpness of the color.
Generally, earth tone colors include, but are not limited to: beige, tan, brown, gray, forest green, and burgundy.
